November 3rd, 2010

To our valued clients, vendors and partners:

We are extremely pleased to announce the merger of our Accpac practice with Net@Work, one of the most respected Sage Software Partners in the Country and an award-winning end-to-end technology solutions provider.

You will see very little change relative to your Sage Software support, really just a name change.

So, what does this mean for our clients?

- Increased resources ~ more staff, better response time & expanded help desk
- Increased expertise (breadth and depth of staff knowledge)
- Additional sales and customer service resources
- Overall more bandwidth to provide better customer experience
- Expanded accounting software, ERP, CRM and HRMS solutions
- New offerings including Document Management, Web Development, and eCommerce

Our existing staff will all be joining Net@Work and continue to provide the excellent level of service and support our customers have come to expect. Our entire team is very excited about joining Net@Work and the ability to bring even more knowledge and resources to all of our clients! We look forward to being able to combine our expertise and experience with the great people at Net@Work and become part of a larger and stronger team. We encourage you to visit the website at <http://www.netatwork.com> to learn more about our new firm.

Thank you for your continued business and we look forward to our ongoing relationship. As always, our goal is to help make you more successful and we look forward to hearing from you. Please don't hesitate to contact us if there are any questions or we can assist you in any way.

Best regards,

Kevin Cumley, President
John Foster, Vice President
Sonia Gray, Vice President
